The fares, it is proposed, will average about three cents a mile and the busses will be timed so that residents of towns en route can get prompt service either

NO. 295—Here is a small place for a handy man that can run a woodworking shop for remaining sleds and wazons, etc.; there is a shop on this place, fully equipped with machinery for that kind of work; it would make a very nice place for repairing automobiles, there is a very large barn where a man could paint and overhaul automobiles and store them away for the winter; there are about 2 acres of land and a good bouse of 9 rooms, with 2 plasms, water running at the bouse and barn. Highted by electricity, some hardwood floors, and all the huildings are in very good shape; just 1; mile from railroad station; would sell the bare place for \$1,600, but would sell all equipped, with all the machinery, masoline engine and a log of lumber, at a very lorge price.
